

Power Source Unit for Printable EL

ASP-EL-PS1000

ASP-EL-PS2000

Flexible EL devices need an appropriate power source to operate. DKN Research provides a suitable power source for each flexible EL design. Currently, the two power source units available are used in high brightness applications and low brightness applications.

- ASP-EL-PS1000 – For low brightness
- ASP-EL-PS2000 – For high brightness
